VERSION SEPTEMBER 2024

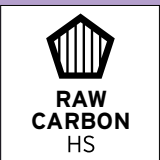

**HEAD**<sup>®</sup>

# PADDLE TECHNOLOGIES

## HITTING SURFACE MATERIAL

**12K CARBON HITTING SURFACE**  
The Toray 12K raw carbon surface delivers a perfect blend of stiffness and flexibility, providing enhanced ball feel and control. Its textured finish maximizes spin potential, giving players more accuracy with every shot.

**RAW CARBON HITTING SURFACE**  
With the T700 Toray raw carbon hitting surface “controlled spin” becomes reality. The raw carbon fibers allow the ball to dwell longer on the face of the paddle, resulting in a more controlled and solid shot.

**CARBON HITTING SURFACE**  
A carbon hitting surface offers more control and precision due to the stiffer nature of carbon. Carbon paddles are known for their durability and enhanced ball feedback, making them ideal for players seeking a more controlled, consistent feel.

**COMPOSITE HITTING SURFACE**  
Discover the enhanced playability of HEAD’s composite hitting surface, delivering a softer touch and increased power suitable for all players.

## CORE TECHNOLOGIES

**THERMOTECH**  
Experience the pinnacle of paddle perfection with our ThermoTech technology, revolutionizing the game by ensuring enhanced consistency, a wider sweet spot, and a supremely stable hitting feel, elevating your pickleball performance to new heights.

**INJECTED FOAM WALLS**  
Injected Foam Walls (IFW) ensure unmatched stability in every shot, while expanding the sweet spot for maximum performance on the pickleball court.

**MOLDED CONSTRUCTION**  
Experience unrivaled durability and consistent performance with our molded pickleball paddles.

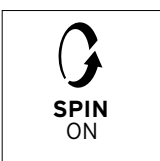

**FOAMED CORE**  
Newly engineered foam which is strategically placed within the core to enhance the performance benefit of each of our three paddle silos.

## HITTING SURFACE TREATMENT

**SPINFUSION**  
SpinFusion merges T700 Toray Raw Carbon with SpinOn texture for massive spin potential and maximum roughness consistency for every player.

**SPIN ON**  
A specially developed lacquer that is applied to the paddle face creating a higher point of friction resulting in massive spin potential.

**SPIN GRID**  
The SpinGrid Surface delivers unprecedented spin potential. Coupled with an outstanding design Spin Grid paddles are providing slightly more power compared to their Raw Carbon counterparts.

**SPIN+**  
Experience the revolutionary Spin+ technology featuring a precision laser-printed 3D structure. Elevate your game with enhanced spin control and maneuverability.

## HANDLE TECHNOLOGIES

**HANDLE STABILIZER TECHNOLOGY**  
HEAD’s Handle Stabilizer Technology (HST) encompasses a specialized 8S-Resin handle reinforcement solution offering superior shock absorption and handle stability.

**COMFORT GRIP**  
Specially formulated PU material has been inlaid into the new Ergo Grip creating a softer feel that dampens vibration for ultimate comfort and playability.

**ERGO GRIP**  
Unlock unparalleled comfort and superior feel with HEAD’s exclusive ergonomic foam handle.

**SOFT BUTT CAP**  
The new soft butt cap features a dual-component soft material construction, delivering enhanced comfort and a cushioned grip. Designed to reduce vibrations, it helps prevent injuries and blisters.

# PICKLEBALL FOOTWEAR

## FOOTWEAR TECHNOLOGIES

### COMFORT

#### ORTHOLITE®

With its innovative long-term cushioning, and lightweight, highly breathable foam, the OrthoLite® insole enhances comfort on and off the court. The moisture management helps to keep the foot cool, dry and comfortable. On top of that, the insole is machine-washable.

#### HEAD TRI-NRG

HEAD's complete support technology. First, NRG Neutralizes impact in the heel area, then it is Rigid in the midfoot area for excellent torsional support properties and densities in each area of the shoe are key elements in this HEAD footwear technology.

#### HEAD COOLING SYSTEM

Perforations in the outsole, midsole and sockliner ensure great ventilation in the bottom of the shoe. Also includes a breathable upper mesh material that provides optimal cooling.

#### DYNAFOAM

Created with small air cells, this highly responsive, lightweight midsole offers exceptional comfort and lasts longer than conventional EVA midsoles.

#### SOCK SUPPORT SYSTEM

Fully integrated elastic sock construction for initial comfort and better support.

#### HEAD T-KORE 360°

Highlighted by the shoe's design, HEAD T-KORE 360° brings together the performance technologies that ambitious players need. The innovations give your shoe a core strength, with enhanced stability, abrasion resistance and torsional support.

#### BOA® PERFORMFIT™ WRAP

Delivers micro-adjustable, precision fit engineered to perform in any conditions.

#### HEAD LATERAL CONTROL+

Reinforced sidewall for outstanding lateral stability which also helps to prevent rolling over during more extreme moves.

#### DELTA STRAP

Triangle shaped midfoot straps are integrated into the lacing for best stability and an individual fit.

#### HEAD LATERAL CONTROL

HEAD includes additional lateral stability on all our top performance shoes to help avoid rolling over during extreme slides.

#### HEAD LOCKDOWN STRAP

Midfoot straps integrated into the lacing system keep your foot in place.

#### HEAD HEEL STABILIZER 180°

TPU Brace that wraps around the heel for best fit and support.

### DURABILITY

#### HEAD HYBRASION+

A special rubber compound developed for court shoes. Guarantees the best traction for all court surfaces while still providing excellent durability for players who slide a lot.

#### SUPERFABRIC®

Extremely abrasion resistant and at the same time really flexible upper material.

#### HEAD HYBRASION

Non-Marking rubber compound that provides good grip and offers great durability on all surfaces.

#### HEAD DRIFT DEFENSE

In order to have a complete durable shoe, the upper of a court shoe needs to be durable as well, especially around the toe and medial forefoot area. HEAD uses an abrasion resistant rubber or a TPU layer in the Drift Defense technology to protect this area during aggressive toe drags.

MOTION PRO BOA PICKLEBALL

Developed with HEAD's pro players, the MOTION PRO BOA PICKLEBALL is the first pickleball shoe with Dual BOA® Fit System, which delivers micro-adjustable precision fit.
